

Cobourg Taxpayers Association

Making Local Government Accountable

\$645,000

That's the amount council has in the budget to help about 45 boaters get their boats out of the water this fall and put back in the spring.

For this past year, the CTA has done delegations, written letters, and talked to Councillors and staff asking them to remove the travel lift from the budget. Our most recent October 12 budget presentation can be found here:

More information can be found at <http://cobourgtaxpayers.ca/>.

Council and staff's reply is not to worry. It is only a "place holder" and that a full business case will be prepared. Why would they even consider holding a place for this? Is this the leanest, most effective and efficient use of hard-earned tax money they can find to help Cobourg's taxpayers?

Help us stop the travel lift. Let council hear your voice loud and clear. Call Mayor Brocanier or click on his email below to bring up a letter that will go to the Mayor and each Councillor. Please do it now. Council of the Whole meets again on October 24. Please add your own comments, if you wish, and please include your name and address.

gbrocanier@cobourg.ca Phone: 289-251-5939

The Travel Lift only benefits a few financially secure people. It puts an unfair burden on seniors with fixed incomes and working families. Please remove the Travel Lift from the budget.
