

***Do you think the Town's plans follow the residents' wishes as expressed at the waterfront consultations?***

Cobourg Council budgeted \$140,000 for consultants to engage residents and develop a plan for the waterfront. There were dozens of meetings with stakeholders. There were presentations of possible ideas. There were design charrettes attended by over 100 residents to flesh out the plans. Almost 2,000 residents completed a lengthy survey.

Major conclusions of this work include extensive marina expansion including an \$800,000 travelift and the construction of docks in the west harbour which may impact Dragon Boaters and other harbour users.

***Do you want the Town to focus on attracting more tourists to the waterfront?***

Cobourg has expended considerable effort and many thousands of dollars to attract more visitors to Cobourg's beach. Some examples are:

- Engaging a tourism attraction specialist
- Widely distributing a tourist attraction booklet
- Contracting for billboard signs in Belleville and Kingston
- Approving a water playground off the beach
- Developing a new website to attract tourists
- Participating in the Blue Flag program
- Sponsoring the Sandcastle Festival and many other initiatives.
