Your Next Industrial Site In Cobourg

Fortunately blessed with all of the major requirements of industry . . . Cobourg has that extra asset — its people! Yes, it's the people of Cobourg who have a solid background educationally, culturally and industrially. Skilled in the various trades, proud of their community and enthusiastic for the future.

In the heart of Ontario's GREAT PINE RIDGE tourist region, Cobourg is ideally located to the major markets of Canada and offers GOOD LIVING as a bonus.

INDUSTRIAL GROWTH POTENTIAL

The industrial growth potential of Cobourg has been recognized by the Ontario Government with its announced intention of stimulating development in the Port Hope — Cobourg area. To this end, provincially sponsored studies totalling \$300,000. are expected to be completed in early 1976. As a result, Governmental assistance through grants, approvals and technical help can be anticipated.

Cobourg is one of the few municipalities within close proximity of Toronto with ample fully serviced industrial land, some of which is Government owned. Both outright purchase or long-term lease of land is available offering significant tax benefit options. Large block acreage of easily serviced industrial land exceeding several hundreds of acres exists and presents a unique opportunity for large scale industrial operations.

In addition, the provincially owned and operated Northam Industrial Park (formerly Ordnance Depot, Armed Forces), has Industrial space available for lease at highly competitive rates. Inquiries in this respect should be directed to the Ontario Development Corporation, Cobourg.

Cobourg benefits from high quality road, rail and water transport accessibility which facilitates the movement of goods and people. A solid, skilled labor and administrative support staff, both male and female, exists and will be gradually increased with governmental action to relocate growth to the Cobourg area.

With such attributes, together with an enviable record of community-business relationship, Cobourg is destined to continue to grow as an attractive town in which to live, work and play.
